

Cinco Jotas

In order to get the unique taste full of nuances of the 5J products, the genuine treasure of our heritage, the preservation of the centuries-old meadows land and the total respect for our animals is absolutely essential. Thus we can raise our pigs in complete freedom and organically, feeding them naturally.

Every story has its origin, come and meet us in order to discover how the legend of the most exclusive and unique ham in the world was forged. Walk through our century-old curing cellars in Jabugo to learn about an elaboration process of more than five years, which has remained unchanged since 1879.

Book your visit to our 5J “Cinco Jotas” curing cellars:
